THE SULLIVAN UROLOGY FOUNDATION MISSION STATEMENT

To support research, development and education in the field of urology for the benefit of all British Columbians

The Sullivan Urology Foundation endeavours to provide financial support to the UBC Department of Urologic Sciences for:

1. Basic scientific, translational and clinical research
2. Postgraduate education of students, residents and fellows
3. The development of new programs at UBC Department of Urologic Sciences and its affiliated UBC teaching hospitals

HISTORY

A new and important organization for the delivery of urologic care to British Columbians began when the Sullivan Urology Foundation was registered as a Canadian charitable organization in 1995.

The Sullivan Urology Foundation supervises a fund which is dedicated to research, education and development of new technology in the field of urology. It is under the direction of its Patrons and Board of Directors and cooperates with the Department of Urologic Sciences at the University of British Columbia.

THE WORK OF THE DEPARTMENT OF UROLOGIC SCIENCES

The Department of Urologic Sciences carries on state of the art healthcare delivery at the three UBC teaching hospitals in the Lower Mainland: Vancouver Acute (VCH and UBC sites), Providence Health Care (St. Paul's and MSJ sites) and Children's and Women's Health Centre of British Columbia. The Department is responsible for the training of medical students, urology residents and specialty fellows to provide tor the future urologic needs of the province.

The Department of Urologic Sciences is a world leader in the study of prostate cancer, bladder cancer, benign prostate illness, minimally invasive surgery (lap and robotics), urologic problems in children, kidney stone disease, voiding dysfunction, including incontinence and neurogenic bladder, men's health issues (including sexual health, andrology and fertility) and critical evaluation of new urologic technology.

THE FOUNDATION SUPPORTS

---

1. Research projects by providing funds for equipment, scientists, nurses and assistants.
2. Education of resident doctors training to become urology specialists by supplying computer hardware, software, education materials and travel grants to postgraduate courses and scientific meetings.
3. The start up of newly recruited doctors as they embark upon their clinical and scientific careers, by providing financial assistance or seed dollars for their research projects.
4. The creation of novel programs and the acquisition of new equipment as necessary to support state of the art care of urologic patients.

The Foundation welcomes support from patients and friends of Department of Urologic Sciences, urologists who are in practice at UBC teaching hospitals, Canadian pharmaceutical and medical equipment firms, the business community, service clubs, foundations and governments.

Donations to the Foundation are tax deductible.

We appreciate your help.
